Subject Index

Abortion, and *Mycoplasma hominis*, 260
Agglutination typing, *Diplococcus pneumoniae*, 217
Amebic meningoencephalitis, primary, 89

NOTE—Pages of the supplement to the May issue, volume 121, are preceded by *S*.

Animal protection tests of cholera vaccines, S1
Antibacterial leukocytic extract of LPS extracted from salmonellae, 634
Antibiotics, binding to tissue homogenates, 55
Antibody, humoral, protection of mice against ip challenge with *Salmonella*, 113

Antigens, group- and species-specific of chlamydial agents, 1
Antitoxic response to *Vibrio cholerae* in humans, S31
Asian influenza, production of interferon in infected volunteers, 419
Australia antigen
  and antiserum, 222
  detection by radioimmunoassay techniques, 550
Bacteriocin from *Streptococcus faecalis*, effect on microbial L-forms, 311
Bacteriologic studies in cholera, S10
Bacteriophage
  from Group A nephritogenic streptococci, 407
  influence on streptococcal cell, 451
Bacteriuria of pregnancy, predictive effect of urinary concentrating ability and hemagglutinating antibody titer upon response to therapy, 588
Bioassay for endotoxin in clinical infections, 103
Bristol Award, Infectious Diseases Society of America, 240
Brucellae, soluble antigens, 522
Canine cholera, antitoxic immunity in isolated perfused ileal segments, S132
Canine copro-immunoglobulins, S118
Cell-free products, of *Escherichia coli* from swine, response of rabbit ileal loop, 182
Cellular resistance, age-related, of chicken embryo to viral infections, 615, 624
Chemotherapeutic agents, susceptibility of *Pseudomonas pseudomallei*, 95
Chick embryo, use in study of infection and immunity, 660
Chinchillas, bioassay of anticholera vaccines, S56
Chlamydiae, thermal denaturation of DNA, 65
Chlamydial agents, group- and species- specific antigens demonstrated by gel diffiusion, 1
Cholera
  antibody activity in, S137, S142
  antitoxic immunity in experimental canine, 463
  antitoxic immunity in isolated perfused canine ileal segments, S132
  antitoxic response in humans, S31
  bioassay of vaccines in chinchillas, S56
  enterotoxin free from permeability factor, S92
  extractable lipid of the enterotoxin, 78
  immunoglobulins in, S137, S142
  intestinal microflora, 32, 38, 46
  prophylactic immunity, S58
  relation between persistence of vibrio in intestines of germfree mice and coproantibody, S124
  sensitivity of agglutinating and vibriocidal antibodies to 2-mercaptoethanol, S25
  separation of protective bacterial substances against experimental infection, S45
  vibriocidal antibodies and immunity, S36
Cholera antitoxin, titration in isolated fat cells, S111
Cholera enterotoxin
  production, purification, and assay, S85
  purification and properties from complex and synthetic media, S73
  titration in isolated fat cells, S111
Cholera exotoxin, concentration and purification by absorption on aluminum compound gels, S96
Cholera toxin, characterization and purification, S80
Cholera vaccine, field trial in rural East Pakistan, S1
Cholera workshop, concluding remarks, S148
Choleragen, purification of, S63
Choleragenoid, purification of, S63
Common cold viruses, 561
Complement, effect on *Mycoplasma canis*, 541
Coproantibody and persistence of vibrio in intestines of germfree mice, S124
Copro-immunoglobulins, canine, S118
Coxsackievirus B_3 infection, influence of undernutrition in mice, 137, 164
Cutaneous leishmaniasis, ecology and control in the Jordan Valley, 427
Cystic fibrosis, immune response of patients and serogroups of *Pseudomonas aeruginosa*, 269
Cysticercus fasciolaris, hepatic infection in rats and enhanced proliferation of H-1 virus, 648
Cytomegalovirus, antibodies in relation to IM-like disease with negative heterophil agglutination test, 608
Diarrhea, *Salmonella* enterocolitis in the rat, 475
2,3-Dihydroxybenzoylserine, production by *Salmonella typhimurium*, 129
Diplococcus pneumoniae, agglutination typing, 217
DNA, thermal denaturation, from chlamydiae, 65
Double-stranded RNA (Poly I:C), use of inducers in man, 196
Electron microscopy, scanning-beam, with selected organisms, 339
Encephalitis, United States, 1966–1968, 457
Endocarditis, in rats after 800 r and epinephrine, 656
Endotoxin
  bioassay in clinical infections, 103
  treatment of rats and growth curves of *Trypanosoma equiperdum*, 331
Enteric infection, with *Escherichia coli* in the mouse, 528
Enterocolitis, Salmonella, in the rat, 475
Enterotoxin
  cholera, extractable lipid, 78
  Vibrio cholerae, free from permeability factor, S92
  Vibrio cholerae, production, purification, and assay, S85
Epidemic, cholera, seroepidemiologic studies, S17
Epinephrine, effect on susceptibility of X-irradiated rats to bacterial endocarditis, 656
Epithelial resistance factor, studies on susceptibility of organ cultures to infection, 70
Epstein-Barr virus
  and infectious mononucleosis, 347
  antibodies in relation to IM-like disease with negative heterophil agglutination test, 608
  observations on childhood infections, 303
Escherichia coli
  enteric infection in the mouse, 528
  from swine, response of rabbit ileal loop to cell-free products, 182
  production of inducible resistance in chicken embryo, 624

XUM

Exotoxin of cholera, concentration and purification, S96
Fever, suppression, usefulness in experimental and clinical infectious diseases, 81
Flavobacterium meningosepticum, epidemic outbreak of meningitis in the newborn, 328
Folic acid deficiency, induction of fatal Shigella infection in young guinea pigs, 275
Glucose-6-phosphatase, reduction in livers of guinea pigs infected with *Trypanosoma gambiense*, 653
Glycogen, reduction in livers of guinea pigs infected with *Trypanosoma gambiense*, 653
Group A streptococci, nephritogenic, characterization of bacteriophages, 407
H-1 virus, enhanced proliferation in livers of rats infected with *Cysticercus fasciolaris*, 648
Hemagglutinating antibody titer, predictive effect upon response to antimicrobial therapy in bacteriuria of pregnancy, 588
Hemolysin responses, 19*S* and 7*S*, in rabbits, 545
Hepatitis-associated antigen and antiserum, 222
Hepatitis in marmosets, 351
Herpes simplex virus, isolation of two variants, 212
Hypothermia, usefulness in experimental and clinical infectious diseases, 81
Ileal loop of the rabbit, response to *Escherichia coli* from swine, 182
Immunity
  antitoxic in experimental canine cholera, 463
  in experimental salmonellosis, 113
  local, in tracheas of chickens, following infection with Newcastle disease virus, 486, 497
  to cholera, S58
  to cholera, significance of vibriocidal antibodies, S36
  use of chick embryo in study of, 660
Immunization
  against smallpox, 575
  passive, against *Vibrio cholerae*, 550
Immunoglobulins in cholera stool, S137
Infectious diseases, control of, 91
Infectious Diseases Society of America, Officers and Council, 239
Infectious mononucleosis and Epstein-Barr virus, 347
Infectious-mononucleosis-like disease, with negative heterophil agglutination test, 608
Influenza virus, production of inducible resistance in chicken embryo, 624
Interferon
  equine, 335
  in natural resistance of chicken embryo to viruses, 615
  production by long-term suspension cultures from patients with viral and nonviral diseases, 442
  production in volunteers infected with Asian influenza, 419
Jejunal aspirates, antibody activity in cholera, S142
Langat virus, role of serum protective factor and neutralizing antibody in murine infection, 378
Leishmaniasis, ecology and control in the Jordan Valley, 427
Leptospirosis, 1965–1968, 458
L-forms, effect of bacteriocin from *Streptococcus faecalis*, 311
Lidocaine, antimicrobial activity, 597
Local anesthetics, antimicrobial activity, 597
Lysostaphin, effects on wall-defective forms of *Staphylococcus aureus*, 124
Malaria, fatalities in United States 1966–1969, 573
Measles, current status in United States, 234
Meningitis, outbreak in the newborn in South America, 328
Meningococcal disease
  prevention, 449
  trends, 454
Meningococcal group C polysaccharide vaccines, cutaneous reactions and antibody response in man, 372
Meningococcal vaccines, 445
Meningoencephalitis, primary amebic, 89
2-Mercaptoethanol, sensitivity of agglutinating and vibriocidal antibodies in human cholera, S25
Microflora
  intestinal in cholera, "rice-water" stool, 32
  intestinal in cholera, small bowel, 38
  intestinal in pediatric cholera, 46
Mycoplasma canis, effect of mouse complement on, 541
Mycoplasma hominis, and abortion, 260
Mycoplasmas
  acquisition during infancy, 579
  methodologic investigations, 391
  prevalence in pregnancy, 391
Myxoviruses, natural resistance of chicken embryo, 615
Neisseria meningitidis, a respiratory pathogen, 48
Neutralization of cholera vascular permeability factor in vivo, S100
Neutralizing antibody, role in experimental Langat viral infection of mice, 378
Newcastle disease virus, in tracheas of chickens, 486, 497
NIAID (National Institute of Allergy and Infectious Diseases), special emphasis programs, 231
Nicarbazin, suppression of schistosomiasis mansoni in mice, 514
Organ culture, studies on susceptibility to infection, 70
Panencephalitis, subacute sclerosing, 188, 227
Parainfluenza type 1 virus, mutant with decreased growth capacity at 38 C and 39 C, 640
Penicillinase, activity in *Staphylococcus aureus* studied by iodometric method, 433
Permeability factor enterotoxin, purification and properties from complex and synthetic media, S73
Plasmodium knowlesi, specificity of IgG in infected rhesus monkeys, 401
Poly I:C inducers, prospects for use in man, 196
Polymyxins, synergistic action against *Serratia marcescens*, 555
Procaine, antimicrobial activity, 597
Pseudomonas aeruginosa, serogroups and immunity of patients with cystic fibrosis, 269
Pseudomonas pseudomallei, susceptibility to chemotherapeutic agents, 95

Psittacosis, in Maryland, 236
Pyelonephritis, hematogenous, induced in rats with resistant *S. aureus*, 344
Radioimmunoassay, techniques for detection of Australia antigen and antibody, 550
Radioimmunodiffusion, used to measure antibody in cholera, S142
Reovirus, persistent viruria in a patient, 438
Resistance
  inducible, of chicken embryo to viruses, 624
  natural, of chicken embryo to viruses, 615
Rickettsia canada, serologic evidence of infection in man, 367
Rifampicin, 461
Rift Valley fever virus, in household pets
  pathologic changes in the dog and cat, 25
  susceptibility of the cat, 19
  susceptibility of the dog, 9
Salmonella
  biochemical reactions, 288
  biological degradation of endotoxin, 634
  enterocolitis in the rat, 475
  ip challenge of mice with complement-sensitive and complement-resistant strains, 113
  surveillance in 1968, 87
Salmonella enteritidis, longitudinal study of serum proteins following infection, 74
Salmonella typhimurium, production of 2,3-dihydroxybenzoylserine, 129
Scanning-beam electron microscopy of organisms, 339
Schistosoma mansoni, specificity of IgG in infected rhesus monkeys, 401
Schistosomiasis mansoni, suppression in mice by nicarbazin, 514
Secretory immune system, S115
Seroepidemiologic studies in cholera, S17
Serologic studies
  in cholera, S10
  of cholera vaccines, S1
Serratia marcescens
  endotoxin treatment of rats and growth curves of *Trypanosoma equiperdum*, 331
  synergistic action of sulfonamides and polymyxins against, 555
Serum antibody activity in cholera, S142
Serum endotoxin-detoxifying component of LPS extracted from salmonellae, 634
Serum protective factor, role in experimental Langat viral infection in mice, 378
Serum proteins, longitudinal study following infection with *Salmonella enteritidis*, 74
Shigella, fatal infection in young guinea pigs induced by folic acid deficiency, 275
Shigellosis, among Indians, 355
Small-colony variants of *S. aureus*, resistant to methicillin and pyelonephritis in rats, 344
Smallpox
  immunization against, 575
  studies on variola virus and immunity, 295
Sporotrichosis, serologic aspects, 316
Squibb Award, Infectious Diseases Society of America, 360
Staphylococcus aureus
  effects of lysostaphin on wall-defective forms, 124
  methicillin-resistant small-cclony variants and pyelonephritis induced in rats, 344
  penicillinase activity studied by iodometric method, 433
Statolon, inducer of interferon in equine kidney cell cultures, 335
Streptococci
  characterization of bacteriophages from Group A, 407
  influence of bacteriophage on the streptococcal cell, 451
Streptococcus faecalis, effect of bacteriocin on microbial L-forms, 311
Subacute sclerosing panencephalitis, 188, 227
Suckling mice, passive immunization against *Vibrio cholerae*, S50
Sulfonamides, synergistic action against *Serratia marcescens*, 555
Synergistic action, sulfonamides and polymyxins against *Serratia marcescens*, 555
Therapeutic orphans, 348
Trypanosoma brucei, specificity of IgG in infected rhesus monkeys, 401
Trypanosoma equiperdum, growth curves in rats treated with endotoxin, 331
Trypanosoma gambiense infection, reduced levels of glycogen and glucose-6-phosphatase in livers of guinea pigs, 653
T-strains, acquisition during infancy, 579
Tuberculosis, hospitalization beds available and occupied, 572
Tularemia
  in the United States, 357
  followup of outbreak in Vermont, 357
Undernutrition, influence on coxsackievirus B_3 infection of mice, 137, 164
Urinary concentrating ability, predictive effect upon response to antimicrobial therapy in bacteriuria of pregnancy, 588
Vaccine
  against cholera, S1
  meningococcal group C polysaccharide in man, 372
Variola virus, immunity in smallpox, 295
Vascular permeability factor
  neutralization in vivo, S100
  serologic evidence for identity in *Vibrio cholerae*, 243
Vesicular stomatitis virus, natural resistance of chicken embryo, 615
Vibrio cholerae
  antigens involved in vibriocidal action of antibody and complement, 505
  infection in sucking mice, 550
  intestinal microflora in a chronic carrier, 383

XUM

serologic evidence for the identity of the vascular permeability factor and ileal loop toxin, 243
serologic identities of proteases and alkaline phosphatases, 251
Vibrio fetus, biochemical and serologic relationships of isolants from man, 471
Vibrios, nonagglutinable, serologic identities of proteases and alkaline phosphatases, 251
Viruria, reovirus in a patient, 438
Virus
common cold, 561
Epstein-Barr, observations on childhood infections, 303
herpes simplex, variability, 212
localization in organ cultures, 70
Newcastle disease, in tracheas of chickens, 486, 497
Rift Valley fever in household pets, 9, 19, 25

Original Articles

Demonstration of Group- and Species-Specific Antigens of Chlamydial Agents by Gel Diffusion. ARLENE R. COLLINS and ALMEN L. BARRON 1

The Clinical Aspects of Rift Valley Fever Virus in Household Pets. I. Susceptibility of the Dog. JERRY S. WALKER, NORMAN S. REMMELE, RICHARD C. CARTER, JOHN Q. MITTEN, LEONARD G. SCHUH, EDWARD L. STEPHEN, and FREDERICK KLEIN 9

The Clinical Aspects of Rift Valley Fever Virus in Household Pets. II. Susceptibility of the Cat. JERRY S. WALKER, EDWARD L. STEPHEN, NORMAN S. REMMELE, RICHARD C. CARTER, JOHN Q. MITTEN, LEONARD G. SCHUH, and FREDERICK KLEIN 19

The Clinical Aspects of Rift Valley Fever Virus in Household Pets. III. Pathologic Changes in the Dog and Cat. JOHN Q. MITTEN, NORMAN S. REMMELE, JERRY S. WALKER, RICHARD C. CARTER, EDWARD L. STEPHEN, and FREDERICK KLEIN 25

Intestinal Microflora in Asiatic Cholera. I. "Rice-Water" Stool. S. L. GORBACH, J. G. BANWELL, B. JACOBS, B. D. CHATTERJEE, R. MITRA, K. L. BRIGHAM, and K. N. NEOGY 32

Intestinal Microflora in Asiatic Cholera. II. The Small Bowel. S. L. GORBACH, J. G. BANWELL, B. JACOBS, B. D. CHATTERJEE, R. MITRA, K. L. BRIGHAM, and K. N. NEOGY 38

Intestinal Microflora in Asiatic Cholera. III. Studies in Pediatric Cholera. S. L. GORBACH, D. MAHALANABIS, J. BRAYTON, B. JACOBS, B. D. CHATTERJEE, and K. N. NEOGY 46

Neisseria meningitidis, a Respiratory Pathogen? ROBERT W. PUTSCH, JOHN D. HAMILTON, and EMANUEL WOLINSKY 48

Binding of Antibiotics to Tissue Homogenates. CALVIN M. KUNIN 55

Notes

Studies on Thermal Denaturation of DNA from Various Chlamydiae. ROBERT K. GERLOFF, DANIEL B. RITTER, and REX O. WATSON 65

Studies on the Susceptibility of Organ Cultures to Infection and on the Localization of the Virus in the Cultures. THOMAS C. CESARIO, GLYN G. CALDWELL, and TOM D. Y. CHIN 70

A Longitudinal Study of Serum α_1-Antitrypsin, α_2-Macroglobulin, Transferrin, Immunoglobulins IgG, IgA, and IgM, and H- and O-Agglutinin Titers in Children Following Infection with *Salmonella enteritidis*. D. WIEDERMANN, D. WIEDERMANNOVÁ, J. P. VAERMAN, and J. F. HEREMANS 74

The Extractable Lipid of the Cholera Enterotoxin. JASBIR KAUR, H. CHRISTEL KÖNIG, WILLIAM R. MARTIN, and WILLIAM BURROWS 78

Editorial

Is Suppression of Fever or Hypothermia Useful in Experimental and Clinical Infectious Diseases? JEAN KLASTERSKY and EDWARD H. KASS 81

From the National Academy of Sciences—National Research Council

Information Resource on Animal Models and Genetic Stocks 87

From the National Communicable Disease Center

Salmonella Surveillance—1968. ANDREW MALLORY and EUGENE J. GANGAROSA 87

Primary Amebic Meningoencephalitis. JAY B. SHUMAKER 89

Infectious Diseases Society of America

Control of Infectious Diseases. ALBERT B. SABIN 91

Volume 121 • *February 1970* • *Number 2*

Original Articles

Pseudomonas pseudomallei: Susceptibility to Chemotherapeutic Agents. THEODORE C. EICKHOFF, JOHN V. BENNETT, PEGGY S. HAYES, and JAMES FEELEY 95

The Use of a Bioassay for Endotoxin in Clinical Infections. MICHAEL W. MCGILL, PHILIP J. PORTER, and EDWARD H. KASS 103

The Specificity and Importance of Humoral Antibody in the Protection of Mice against Intraperitoneal Challenge with Complement-Sensitive and Complement-Resistant Salmonella. EUGENE P. ORNELLAS, ROBERT J. ROANTREE, and JOHN P. STEWARD 113

Effects of Lysostaphin and Its Two Active Components on Stable Wall-Defective Forms of *Staphylococcus aureus*. CHATRCHAI WATANAKUNAKORN and HENRY P. BROWDER 124

Production by *Salmonella typhimurium* of 2,3-Dihydroxybenzoylserine, and Its Stimulation of Growth in Human Serum. TRACY D. WILKINS and CHARLES E. LANKFORD 129

The Influence of Quantitated Post-Weaning Undernutrition on Coxsackievirus B_3 Infection of Adult Mice. I. Viral Persistence and Increased Severity of Lesions. JACK F. WOODRUFF and EDWIN D. KILBOURNE 137

The Influence of Quantitated Post-Weaning Undernutrition on Coxsackievirus B_3 Infection of Adult Mice. II. Alteration of Host Defense Mechanisms. JACK F. WOODRUFF 164

Response of the Rabbit Ileal Loop to Cell-Free Products from *Escherichia coli* Enteropathogenic for Swine. H. W. MOON, S. C. WHIPP, G. W. ENGSTROM, and A. L. BAETZ 182

Subacute Sclerosing Panencephalitis: Isolation of a Virus Encephalitogenic for Ferrets. MICHAEL KATZ, LUCY BALIAN RORKE, WILLIAM S. MASLAND, GIUSEPPE BARBANTI BRODANO, and HILARY KOPROWSKI 188

Review

Prospects for the Use of Double-Stranded Ribonucleic Acid (Poly I:C) Inducers in Man. MAURICE R. HILLEMAN 196

Notes

Variability of Herpes Simplex Virus: Isolation of Two Variants from Simultaneous Eruptions at Different Sites. MAURIZIO TERNI and BERNARD ROIZMAN 212

A Microtiter Plate Technique for the Agglutination Typing of *Diplococcus pneumoniae*. J. B. KIRKMAN, JR., JANET FISCHER, and J. S. PAGANO 217

Preparation and Characterization of Complement-fixing Hepatitis-associated Antigen and Antiserum. ROBERT H. PURCELL, JOHN L. GERIN, PAUL V. HOLLAND, W. LEE CLINE, and ROBERT M. CHANOCK 222

Editorial

Subacute Sclerosing Panencephalitis. RICHARD T. JOHNSON 227

Special Article

Remarks on Special Emphasis Programs of the National Institute of Allergy and Infectious Diseases. DORLAND J. DAVIS 231

From the National Communicable Disease Center

Current Status of Measles in the United States 234

Psittacosis in Maryland. KENNETH CRAWFORD, J. MEHSEN JOSEPH, HAROLD MELLIN, JOHN H. RICHARDSON, and LAWRENCE A. BUSCH 236

No Pie in the Sky for NIAID. EDWARD H. KASS 559

Special Article

Hunting Common Cold Viruses by Some New Methods. DAVID A. J. TYRRELL 561

From the American Academy of Pediatrics

Revised Report on Infectious Diseases 572

From the National Communicable Disease Center

The Trend in Hospitalization Beds Available and Occupied for Tuberculosis. VERNON N. HOUK 572

Fatalities due to Malaria in the United States, 1966–1969. ARTHUR S. DOVER and KARL A. WESTERN 573

Report of a Conference

Projected Studies on Immunization against Smallpox. GEORGE J. GALASSO 575

Books Received 578

Instructions to Authors

Session I: Epidemiologic Studies, Vaccine Trials, and Immune Response

The 1968–1969 Cholera-Vaccine Field Trial in Rural East Pakistan. Effectiveness of Monovalent Ogawa and Inaba Vaccines and a Purified Inaba Antigen, with Comparative Results of Serological and Animal Protection Tests. WILEY H. MOSLEY, WILLIAM E. WOODWARD, K. M. A. AZIZ, A. S. M. MIZANUR RAHMAN, A. K. M. ALAUDDIN CHOWDHURY, ANSARUDDIN AHMED, and JOHN C. FEELEY S1

The Spectrum of Cholera in Rural East Pakistan. I. Correlation of Bacteriologic and Serologic Results. WILLIAM E. WOODWARD, WILEY H. MOSLEY, and WILLIAM M. MCCORMACK ... S10

Seroepidemiologic Studies during a Simultaneous Epidemic of Infection with El Tor Ogawa and Classical Inaba *Vibrio cholerae*. KENNETH J. BART, ZAHIDUL HUQ, MOSLEMUDDIN KHAN, and WILEY H. MOSLEY, with the technical assistance of MD. NURUZZAMAN and A. K. M. GOLAM KIBRIYA S17

Sensitivity of Agglutinating and Vibriocidal Antibodies to 2-Mercaptoethanol in Human Cholera. CHRISTOPHER B. MERRITT and R. BRADLEY SACK S25

Magnitude and Duration of Antitoxic Response to Human Infection with *Vibrio cholerae*. NATHANIEL F. PIERCE, JOHN G. BANWELL, R. BRADLEY SACK, RUPAK C. MITRA, and ARABINDO MONDAL S31

Significance of Vibriocidal Antibodies with Regard to Immunity to Cholera. EUGENE J. GANGAROSA, WALLIS E. DEWITT, JOHN C. FEELEY, and MARY R. ADAMS S36

Discussion. ROBERT O. OSEASOHN S44

Session II: Immunizing Agents, Adjuvants, and Vibrio Antigens

Separation of Protective Bacterial Substances against Experimental Vibrio Infection. MORIMASA YOSHIOKA, KIHACHIRO TAKAHASHI, TOYO HIRANO, YUZO KAZUNO, SATOSHI TAKEUCHI, YASUKA AKIBA, AKIRA GHODA, TATSUO SUZUKI, and YUMIKO SUZUKI S45

Protective Effect on Infections with *Vibrio cholerae* in Suckling Mice Caused by the Passive Immunization with Milk of Immune Mothers. ATSUO UJIIYE and KAZUMINE KOBARI S50

Preliminary Studies on the Bioassay of Anticholera Vaccines in Chinchillas. S. BASU, R. L. ROBINSON, and M. J. PICKETT S56

Toward an Effective Prophylactic Immunity to Cholera. WILLIAM BURROWS S58

Discussion. JOHN C. FEELEY S62

Session III: Production, Purification, and Assay of Cholera Toxin

Production of Highly Purified Choleragen and Choleragenoid. RICHARD A. FINKELSTEIN and JOSEPH J. LOSPALLUTO S63

Purification and Properties of Permeability Factor/Cholera Enterotoxin from Complex and Synthetic Media. STEPHEN H. RICHARDSON and K. ALAYNE NOFTLE S73

Characterization and Purification of Cholera Toxin. ROBERT J. HECKLY and H. WOLOCHOW S80

Production, Purification, and Assay of Cholera Enterotoxin. R. C. DUHAMEL, P. TALBOT, and G. F. GRADY S85

Cholera Enterotoxin Free from Permeability Factor? G. F. GRADY and M. C. CHANG S92

Concentration and Purification of Cholera Exotoxin by Absorption on Aluminum Compound Gels. GEORGE J. SPYRIDES and JOHN C. FEELEY S96

XUM

Some Observations on the Neutralization of Cholera Vascular Permeability Factor in Vivo. JOHN P. CRAIG S100

Titration of Cholera Enterotoxin and Antitoxin in Isolated Fat Cells. W. B. GREENOUGH, III, N. F. PIERCE, and M. VAUGHAN S111

Discussion. RICHARD A. FINKELSTEIN S114

Session IV: Immunologic Mechanisms in the Gastrointestinal Tract

The Secretory Immune System, a Brief Review. JOHN S. JOHNSON S115

Canine Copro-immunoglobulins. HERBERT Y. REYNOLDS and JOHN S. JOHNSON S118

The Relation between the Persistence of El Tor Vibrio in the Intestines of Germfree Mice and So-called Coproantibody. SHOGO SASAKI, NOBUHIKO OHNISHI, RYOKO SUZUKI, KENJI ADACHI, MASAO MIYASHITA, TADAKATSU SHIMAMURA, SEIKI TAZUME, RYOZO MAEDA, and TOSHIKO TAKAHASHI S124

Antitoxic Immunity to Cholera in Isolated Perfused Canine Ileal Segments. GEORGE T. CURLIN and CHARLES C. J. CARPENTER, JR. S132

Immunoglobulins and Antibody Activity in the Intestine and Serum in Cholera. I. Analysis of of Immunoglobulins in Cholera Stool. ROBERT S. NORTHRUP, JOHN BIENENSTOCK, and THOMAS B. TOMASI, JR. S137

Immunoglobulins and Antibody Activity in the Intestine and Serum in Cholera. II. Measurement of Antibody Activity in Jejunal Aspirates and Sera of Cholera Patients by Radioimmunodiffusion. ROBERT S. NORTHRUP and S. AKTAR HOSSAIN S142

Discussion. ROBERT S. NORTHRUP S147

Concluding Remarks on the Cholera Workshop. COLIN M. MACLEOD S148

Volume 121 • *June 1970* • *Number 6*

Original Articles

Acquisition of Mycoplasmata and T-Strains during Infancy. HJORDIS M. FOY, GEORGE E. KENNY, E. MARK LEVINSOHN, and J. THOMAS GRAYSTON 579

Predictive Effect of Urinary Concentrating Ability and Hemagglutinating Antibody Titer upon Response to Antimicrobial Therapy in Bacteriuria of Pregnancy. CARL W. NORDEN, PAUL S. LEVY, and EDWARD H. KASS 588

Antimicrobial Activity of Local Anesthetics: Lidocaine and Procaine. ROBERT M. SCHMIDT and HERBERT S. ROSENKRANZ 597

Infectious-mononucleosis-like Disease with Negative Heterophil Agglutination Test. Clinical Features in Relation to Epstein-Barr Virus and Cytomegalovirus Antibodies. ERKKI KLEMOLA, ROBERT VON ESSEN, GERTRUDE HENLE, and WERNER HENLE 608

Age-related Cellular Resistance of the Chicken Embryo to Viral Infections. I. Interferon and Natural Resistance to Myxoviruses and Vesicular Stomatitis Virus. PAGE S. MORAHAN and SIDNEY E. GROSSBERG 615

Age-related Cellular Resistance of the Chicken Embryo to Viral Infections. II. Inducible Resistance Produced by Influenza Virus and *Escherichia coli*. PAGE S. MORAHAN and SIDNEY E. GROSSBERG 624

Comparison of the Effects of an Antibacterial Leukocytic Extract and the Serum Endotoxin-detoxifying Component of Lipopolysaccharides Extracted from Rough and Smooth Salmonellae. L. CHEDID, A. LAMENSANS, and J. PRIXOVA 634

A Mutant of Parainfluenza Type 1 Virus with Decreased Capacity for Growth at 38 C and 39 C. LOUIS POTASH, RONALD S. LEES, JOEL L. GREENBERGER, ANNELISE HOYRUP, LORRAINE D. DENNEY, and ROBERT M. CHANOCK 640

Enhanced Proliferation of H-1 Virus in Livers of Rats Infected with *Cysticercus fasciolaris*. LAWRENCE KILHAM, GEORGE MARGOLIS, and EMERSON D. COLBY 648

Notes

Reduced Levels of Glycogen and Glucose-6-Phosphatase in Livers of Guinea Pigs Infected with *Trypanosoma gambiense*. YOLANDA MARCIACQ and JOHN RICHARD SEED 653

Effect of Epinephrine in Oil on Susceptibility of X-irradiated Rats to Experimental Bacterial Endocarditis. BENJAMIN HIGHMAN, NORMAN W. RANTANEN, and ALAN R. HANKS 656

Editorial

The Chick Embryo for the Study of Infection and Immunity. G. JOHN BUDDINGH 660

Subject Index

Adenine, effects on growth of clinical isolates of *Staphylococcus,* 216
Adenovirus vaccine, type 4, experimental respiratory infection in volunteers, 239
Alcohol, phenethyl, effects on growth of clinical isolates of *Staphylococcus,* 216
Ampicillin, effects on *E. coli* and *P. mirabilis,* conditions simulating urinary bladder, 465
Anemia, equine infectious and induction of interferon, 10
Animal model for streptococcal impetigo, 224
Antibacterial therapy, change in ecology of bacterial infections, 419
Antibiotic, oral, effect on fecal flora and mortality in mouse radiation chimeras, 83
Antibiotics, synergism against enterococci, 462
Antibody response, human, individual variability in respiratory-tract infection by coxsackie A-21 virus, 127
Antibody, to Epstein-Barr virus, in various populations, 401
Arbovirus, infection of voluntary striated muscle, 45
Autoimmunity, in chronic experimental pyelonephritis, 191
Bacillus cereus, lecithinase-producing, isolation following ventriculoatrial shunt-revision, 547
Bacteremia
  after ventriculoatrial shunt-revision, isolation of lecithinase-producing *B. cereus,* 547
  pneumococcal, role of lysosomes and cathepsin inhibitor in plasma, 290
Bacterial cell surface, changes induced by antibiotics, scanning-beam electron microscopy, 323
Bacteriuria, ten-year study of schoolgirls, 382
Benzylpenicillin, effects on *E. coli* and *P. mirabilis,* conditions simulating urinary bladder, 465
Blastomycosis, fungal skin test a diagnostic hindrance, 343
Botulism, surveillance in the United States, 1968–1969, 122
Brucella melitensis, immune response of animals to live and killed strain Rev. I vaccine, 489
Brucella skin-test antigens, characterization, 70
Bunn, Paul A., obituary, 359
Burkitt's lymphoma, American, association with Epstein-Barr virus, 401
Carbenicillin
  chemistry and mode of action, S1
  clinical and laboratory studies, S104
  clinical and microbiologic studies, S90
  clinical pharmacology compared with other penicillins, S9
  combined therapy, S78
  induced alterations in surface morphology of bacterial cells, studied with scanning-beam electron microscope, 323
  intravenous administration for septicemia due to *Pseudomonas* following thermal injury, S40
  in treatment of burns, S34
  in-vitro activity, S14
  in-vivo synergism, S78
  microbiology of treatment of burns, S34
  pharmacokinetics in patients with hepatic and renal failure, S75
  therapy of *Pseudomonas* infections in children, S48
  therapy of systemic infections due to *Pseudomonas,* S84
  treatment of infections of the urinary tract, S29
  treatment of infections with *Pseudomonas,* S14
  treatment of *Proteus* meningitis, S62
  treatment of *Pseudomonas* infections in combination with gentamicin, S14
  treatment of severe infections due to *Pseudomonas,* S96
  use in patients with cystic fibrosis, S59
Cathepsin inhibitor, and lysosomes, their role in plasma during pneumococcal infection, 290
Cells, equine, and induction of interferon, 10
Cephaloridine
  and kidneys, 104
  nephrotoxicity in rabbits, 33
Cephalothin, induced alterations in the surface morphology of bacterial cells studied with scanning-beam electron microscope, 323
Chikungunya virus infectivity, stabilization by human blood platelets, 523
Chimeras, mouse radiation, effect of oral antibiotic on fecal flora and mortality, 83
Chimpanzees, immunologic responses to induced pharyngitis, 280
Chloramphenicol-resistant *S. epidermidis,* transmission, 365
Chromobacterium violaceum, in the gibbon, 563
Clostridium perfringens, surveillance of foodborne disease in the United States, 354
Coccidioidomycosis, fungal skin test as a diagnostic hindrance, 343
Colostomy, transverse, and ileostomy effluents, normal flora, 376
Coronavirus, 229E-like, community-wide outbreak of infection, 272
Coxsackie A-21 virus, antibody response of humans to respiratory-tract infection, 127
Cryptococcin, effect on leukocytic migration, 454
Cryptococcus neoformans, measurement of cellular hypersensitivity by leukocytic migration in infection, 454
Cultures, human fetal intestinal organ, establishment for growth of viruses, 227
Cystic fibrosis, use of carbenicillin, S59
Cytomegalovirus, history, culture, and host relationships, 532

NOTE.—Pages of the supplement to the September issue, volume 122, are preceded by *S.*

Cytopathic effect, on L cells by leptospiral factor, 310
Diplococcus pneumoniae, role of lysosomes and cathepsin inhibitor in plasma during infection, 290
Dysentery
epidemiology of epidemic Shiga bacillus in Central America, 181
etiology of epidemic Shiga bacillus in Central America, 170
Shiga bacillus, 232
Electron microscopy, scanning-beam, of antibiotic-induced alterations in surface morphology of bacterial cells, 323
Encephalitis, St. Louis, in Saline County, Illinois, 1968, 347
Encephalitis virus, Japanese B, resistance of mice following inactivated vaccine and Poly I:C, 339
Encephalomyelitis, eastern and western equine in mice, pathogenesis from intracerebral and subcutaneous inoculations, 53
Endocarditis in opossum, induction with a single injection of *S. viridans*, 89
Endotoxins
bacterial, requisites for hybrid formation, 139
effects on susceptibility to infections, 205
Enterococci, antibiotic synergism against, 462
Epstein-Barr virus, immunity in man, 401
Escherichia coli
antibiotic-induced alterations in surface morphology studied with scanning-beam electron microscope, 323
antigenic relationship with *Neisseria meningitidis*, 100
effects of benzylpenicillin and ampicillin, conditions simulating urinary bladder, 465
endotoxins, hybrid formation with *Salmonella* endotoxins, 139
enteropathogenic, development of resistance with age by swine intestine, 220
Flora, ileostomy and transverse colostomy effluents, 376
Foodborne disease, surveillance in the United States, comparison of data, 1968–1969, 354
Fowl plague virus, isolation from man, 513
Fungal skin test, a diagnostic hindrance, 343
Gentamicin, combination therapy with carbenicillin of *Pseudomonas* infections, S14
Glomerulonephritis, streptococcal, experimental model, and resemblance to human acute poststreptococcal, 249
Glycoglobulins, serum alpha$_2$, influence of altered viral virulence on response, 329
Gonococcal susceptibility to penicillin, United States, 1955–1969, 459
Gonorrhea, treatment with penicillin, 459
Hamburger, Morton, obituary, 361
Heat, effect on viral hepatitis, strains MS-1 and MS-2, 432
HeLa cells, interaction with *Shigella flexneri*, 1
Hemolysins, oxygen-stable of Group A streptococci, relation of leukotoxic factor to streptolysin S, 517
Hemorrhagic fever, 437, 560
Hemorrhagic fever, Soviet viral, 437
Hepatitis
infectious canine, influence of altered virulence on response of host serum alpha$_2$ glycoglobulins, 329
viral, morbidity trends, 234
Herpes-zoster meningoencephalitis, 335
Histoplasmosis, fungal skin test as a diagnostic hindrance, 343
Ileostomy, and transverse colostomy effluents, normal flora, 376
Immune response, of animals to live and killed *Brucella melitensis* strain Rev. I vaccine, 489
Immunization
against *Brucella melitensis* strain Rev. I, response of animals, 489
mumps, 116
response to purified influenza vaccine, 26
Immunofluorescence, studies of infection with respiratory syncytial virus, 260
Infectious canine hepatitis, influence of altered virulence on response of host serum alpha$_2$ glycoglobulins, 329
Impetigo
simulation of human, experimental infection of skin in hamster, 196
streptococcal, a hamster model, 224
Inactivation, immune, of T-strain mycoplasmas, 93
Inclusion conjunctivitis and trachoma agents, identification, 105
Infection
bacterial, changing ecology as related to antibacterial therapy, 419
effects of endotoxins on susceptibility, 205
of voluntary striated muscle by arbovirus, 45
Infectious diseases in man, tryptophan metabolism during, 159
Infectious Diseases Society of America, joint meeting with Society for the Study of Infectious Diseases (Scotland), 570
Infectious mononucleosis, association with Epstein-Barr virus, 401
Infectivity, of hepatitis virus, effect of heat, 432
Influenza
effect of vaccination of schoolchildren on outbreak in Michigan, 16
pandemic, prevention, 108
Influenza vaccine
inactivated, A2/Hong Kong and B, evaluation of prophylaxis, 472
purified, response to dose and route of immunization, 26
Instructions to authors, 575
Interferon
absence in equine infectious anemia, 10
kinetics of induction in equine cells, 10
Intestinal organ cultures, human fetal, establishment for growth of viruses, 227
Intestine, swine, development of resistance with age to effects of enteropathogenic *E. coli*, 220
Keratoconjunctivitis, development in rabbit eye inoculated with *S. flexneri*, 394

Kidney
effects of cephaloridine, 104
toxicity of cephaloridine in rabbits, 33
L cells, leptospiral factor producing a cytopathic effect, 310
Lecithinase-producing *B. cereus*, isolation following ventriculoatrial shunt-revision, 547
Leptospira interrogans, factor producing a cytopathic effect on L cells, 310
Leukocytes
interaction with *Shigella flexneri*, 1
migration, inhibition by cryptococcin, 454
Leukotoxic factor, relation to streptolysin S, 517
Lysosomes, and cathepsin inhibitor, their role in plasma during pneumococcal infection, 290
Meningitis, and bacteremia, after ventriculoatrial shunt-revision, isolation of lecithinase-producing *B. cereus*, 547
Meningococcal pneumonia, 346
Meningoencephalitis, herpes-zoster, 335
Mitomycin, effects on growth of clinical isolates of *Staphylococcus*, 216
Morbidity, viral hepatitis, 234
Morphology, bacterial surface, changes induced by antibiotics, 323
Mumps, immunization, 116
Muscles, voluntary striated, arboviral infection, 45
Mutants, temperature-sensitive, respiratory syncytial virus, in hamsters, 501
Mycoplasmas
effect of physical stress on elementary bodies and colony-forming units, 64
growth and morphology, replicating in synchrony, 146
T-strain, immune inactivation, 93
Neisseria gonorrhoeae, susceptibility to penicillin, 459
Neisseria meningitidis, antigenic relationship with *E. coli*, 100
Nephrotoxicity, of cephaloridine in rabbits, 33
Obituaries
Bunn, Paul A., 359
Hamburger, Morton, 361
Osteomyelitis, experimental model, 410
Penicillin
gonococcal susceptibility in the United States, 459
synergism with streptomycin against enterococci, 462
G, induced alterations in surface morphology of bacterial cells studied with scanning-beam electron microscope, 323
Penicillinase, test, staphylococci, 544
Pertussis, in the United States, 123
Pharyngitis, streptococcal, induced in chimpanzees, 280
Plasma, role of lysosomes and cathepsin inhibitor during pneumococcal infection, 290
Platelets, human blood, stabilization of chikungunya virus infectivity, 523
Pneumococci, infection, role of lysosomes and cathepsin inhibitor, 290
Pneumonia, meningococcal, 346
Poly I:C, effect on resistance of mice to virulent Japanese B encephalitis virus, 339
Proteus meningitis, treatment with carbenicillin, S62
Proteus mirabilis, effects of benzylpenicillin and ampicillin, conditions simulating urinary bladder, 465
Pseudomonas aeruginosa, antibiotic-induced alterations in surface morphology, studied with scanning-beam electron microscope, 323
Pseudomonas infections
therapy with carbenicillin in children, S48
treatment with carbenicillin singly and in combination with gentamicin, S14
Pseudomonas septicemia, therapy with carbenicillin, S40
Pseudomonas
therapy of systemic infections with carbenicillin, S84
treatment of severe infections with carbenicillin, S96
Pyelonephritis, chronic experimental, autoimmunity, 191
Rabies, human, a case, 318
Replication, of mycoplasmas, growth and morphology, 146
Respiratory syncytial virus
immunofluorescent studies of infection, 260
temperature-sensitive mutants, in hamsters, 501
Respiratory-tract infection
community-wide outbreak with 229E-like coronavirus, 272
coxsackie A-21 virus, antibody response of humans, 127
experimental type 4 adenovirus vaccine in volunteers, 329
Rocky Mountain spotted fever, tryptophan metabolism, 159
Salmonella
endotoxins, hybrid formation with *E. coli* endotoxins, 139
surveillance of foodborne disease in the United States, 1968–1969, 354
Sandfly fever, tryptophan metabolism, 159
Serum alpha$_2$ glycoglobulins, influence of altered viral virulence on response, 329
Shiga bacillus dysentery, 232
epidemiology of epidemic in Central America, 181
etiology of epidemic in Central America, 170
Shigella flexneri
experimental infection of rabbit eye, 394
interaction with leukocytes and HeLa cells, 1
Skin infection, experimental, in hamster simulating human impetigo, 196
Skin test, fungal, a diagnostic hindrance, 343
Smallpox vaccination, complications, 303
Soviet viral hemorrhagic fevers, review, 437
Staphylococcus
selective effects of exogenous metabolites and antimetabolites on growth, 216
surveillance of foodborne disease in the United States, 1968–1969, 354
Staphylococcus aureus
antibiotic-induced alterations in surface morphology studied with scanning-beam electron microscope, 323
development of osteomyelitis in rabbits, 410
test to differentiate penicillin-susceptible from penicillin-resistant, 544

XUM

Staphylococcus epidermidis, transmission of chloramphenicol-resistant strains, 365
Streptococcus
a hamster model for impetigo, 224
group A, oxygen-stable hemolysins, relation of leukotoxic factor to streptolysin S, 517
induced pharyngitis in chimpanzees, 280
laboratory model of experimental glomerulonephritis resembling human acute poststreptococcal glomerulonephritis, 249
Streptococcus viridans, induction of endocarditis in opossum by single injection, 89
Streptolysin S, relation to leukotoxic factor, 517
Streptomycin, synergism with penicillin against enterococci, 462
Stress, physical, effect on mycoplasmas, 64
St. Louis encephalitis, in Saline County, Illinois, 1968, 347
Synergism, of antibiotics against enterococci, 462
Tetanus, in the United States, 1969, 564
Toxin, production by nonpathogenic *V. cholerae,* 540
Toxoplasma gondii, life cycle, hosts, and transmission, 553
Toxoplasmosis, natural history, 553
Trachoma, and inclusion conjunctivitis agents, identification, 105
Trichinosis, in the United States, 1969, 568
Tryptophan
effects on growth of clinical isolates of *Staphylococcus,* 216
metabolism during infectious illness in man, 159
Tuberculosis, in the leopard frog, 96
Tularemia, tryptophan metabolism, 159
Typhoid fever, tryptophan metabolism, 159
Urinary-tract infection
study of bacteriuria in schoolgirls, 382
treatment with carbenicillin, S29
Vaccination
of schoolchildren, effect on outbreak of influenza in Michigan, 16
smallpox, complications, 303
Vaccine
Brucella melitensis strain Rev. I, animal response, 489
inactivated, effect on resistance of mice to virulent Japanese B encephalitis virus, 339
type 4 adenovirus, experimental respiratory infection in volunteers, 239
Variola major, in West Pakistan, 479
Ventriculoatrial shunt-revision, meningitis and bacteremia, isolation of lecithinase-producing *B. cereus,* 547
Vibrio cholerae, toxin production by nonpathogenic strain, 540
Virulence, altered, infectious canine hepatitis, alpha$_2$ glycoglobulin response, 329
Virus
coronavirus 229E-like, community-wide outbreak of infection, 272
establishment of human fetal intestinal organ cultures for growth, 227
fowl plague, isolated from man, 513
hepatitis, effect of heat on strains MS-1 and MS-2, 432
hepatitis, morbidity trends, 234
Japanese B encephalitis, resistance of mice following inactivated vaccine and Poly I:C, 339
vaccine, inactivated, A$_2$/Hong Kong and B influenza, evaluation of prophylaxis, 472

Instructions to Authors

Original Articles

In-vitro Interaction of *Shigella flexneri* with Leukocytes and HeLa Cells. ORNELLA CALABI 1

Equine Interferon: Absence in Equine Infectious Anemia and Kinetics of Induction in Equine Cells. KENNETH D. LEY, DIETER BURGER, TRAVIS MCGUIRE, and JAMES B. HENSON 10

Modification of an Outbreak of Influenza in Tecumseh, Michigan by Vaccination of Schoolchildren. ARNOLD S. MONTO, FRED M. DAVENPORT, JOHN A. NAPIER, and THOMAS FRANCIS, JR. 16

Purified Influenza Vaccine: Clinical and Serologic Responses to Varying Doses and Different Routes of Immunization. C. A. PHILLIPS, B. R. FORSYTH, W. A. CHRISTMAS, D. W. GUMP, E. B. WHORTON, I. ROGERS, and A. RUDIN 26

Nephrotoxicity due to Cephaloridine: A Light- and Electron-Microscopic Study in Rabbits. FRED SILVERBLATT, MARVIN TURCK, and RUTH BULGER 33

Arboviral Infection of Voluntary Striated Muscles. PHILIP M. GRIMLEY and ROBERT M. FRIEDMAN 45

A Comparative Study of the Pathogenesis of Western Equine and Eastern Equine Encephalomyelitis Viral Infections in Mice by Intracerebral and Subcutaneous Inoculations. CHIEN LIU, DOUGLAS W. VOTH, PATRICIA RODINA, LESLIE R. SHAUF, and GUILLERMO GONZALEZ 53

Effect of Physical Stress on the Elementary Bodies and Colony-forming Units of Mycoplasmas. GEOFFREY FURNESS 64

Characterization of *Brucella* Skin-Test Antigens. NALINE BHONGBHIBHAT, SANFORD ELBERG, and T. H. CHEN 70

Notes

The Effect of the Supply of Oral Antibiotic on the Fecal Flora and Mortality of Mouse Radiation Chimeras. M. BORANIĆ and D. VAN DER WAAIJ 83

Experimental Bacterial Endocarditis in the Opossum (*Didelphis virginiana*). II. Induction of Endocarditis with a Single Injection of *Streptococcus viridans*. JAVAD VAKILZADEH, D. T. ROWLANDS, JR., B. F. SHERWOOD, and J. C. LEMAY 89

Immune Inactivation of T-Strain Mycoplasmas. J-S LIN and E. H. KASS 93

Tuberculosis in the Leopard Frog (*Rana pipiens*). GARY N. JOINER and GERALD D. ABRAMS 96

Antigenic Relationship between *Escherichia coli* and *Neisseria meningitidis*. OSCAR GRADOS and WILLIAM H. EWING 100

Editorials

Cephaloridine and the Kidneys. E. JACK BENNER 104

Recommended Criteria for the Identification of Trachoma and Inclusion Conjunctivitis Agents. JULIUS SCHACHTER 105

Special Article

Pandemic Influenza: An Unresolved Problem in Prevention. CHARLES H. STUART-HARRIS 108

Committee on Immunization

Guide to Immunization against Mumps. A. MARTIN LERNER 116

From the National Communicable Disease Center

Surveillance for Botulism in the United States, 1968–1969. JOSEPH A. DONADIO and EUGENE J. GANGAROSA 122

XUM

Pertussis in the United States. GEO. F. BROOKS and THOMAS M. BUCHANAN 123

Infectious Diseases Society of America—News
Annual Meeting, October 17 and 18, 1970—Preliminary Scientific Program 126

Erratum 126

Books Received 126

Volume 122 • *September 1970* • *Number 3*

Original Articles

Individual Variability in Antibody Response of Human Volunteers to Infection of the Upper Respiratory Tract by Coxsackie A-21 Virus. WAYNE E. MAGEE and OLGA V. MILLER 127

Some Requisites in Systems Leading to Hybrid Formation between Bacterial Endotoxins. JON A. RUDBACH 139

The Growth and Morphology of Mycoplasmas Replicating in Synchrony. GEOFFREY FURNESS 146

Tryptophan Metabolism during Infectious Illness in Man. M. I. RAPOPORT, W. R. BEISEL, and R. B. HORNICK 159

Epidemic Shiga Bacillus Dysentery in Central America. I. Etiologic Investigations in Guatemala, 1969. LEONARDO J. MATA, EUGENE J. GANGAROSA, ARMANDO CÁCERES, DAVID R. PERERA, and MARÍA LAURA MEJICANOS 170

Epidemic Shiga Bacillus Dysentery in Central America. II. Epidemiologic Studies in 1969. EUGENE J. GANGAROSA, DAVID R. PERERA, LEONARDO J. MATA, CESAR MENDIZÁBAL MORRIS, GUILLERMO GUZMÁN, and L. BARTH RELLER 181

Autoimmunity in Chronic Experimental Pyelonephritis. THOMAS E. MILLER, JAMES W. SMITH, JAMES W. LEHMANN, and JAY P. SANFORD 191

Experimental Infection of the Skin in the Hamster Simulating Human Impetigo. I. Natural History of the Infection. ADNAN S. DAJANI and LEWIS W. WANNAMAKER 196

Review

Effects of Endotoxins on Susceptibility to Infections. LEIGHTON E. CLUFF 205

Notes

Selective Effects of Exogenous Metabolites and Antimetabolites on Growth of Clinical Isolates of *Staphylococcus*. H. HAMEL-MESSIER, J. DE REPENTIGNY, L. G. MATHIEU, and S. SONEA 216

Development of Resistance with Age by Swine Intestine to Effects of Enteropathogenic *Escherichia coli*. H. W. MOON and S. C. WHIPP 220

A Hamster Model for Streptococcal Impetigo. ALICE H. CUSHING and EDWARD A. MORTIMER, JR. 224

Establishment of Human Fetal Intestinal Organ Cultures for Growth of Viruses. RAPHAEL DOLIN, NEIL R. BLACKLOW, RICHARD A. MALMGREN, and ROBERT M. CHANOCK 227

Editorial

Shiga Bacillus Dysentery. PHILIP S. BRACHMAN 232

From the Center for Disease Control

Viral Hepatitis: Morbidity Trends. RICHARD A. GARIBALDI and JOHN A. BRYAN..... 234

From Harvard University
Research in Tropical Medicine 236

Infectious Diseases Society of America—News
Annual Meeting, October 17 and 18, 1970—Program 238

Instructions to Authors

Volume 122 • *September 1970* • *Supplement*

Carbenicillin: Chemistry and Mode of Action. KENNETH BUTLER, ARTHUR R. ENGLISH, VERNE A. RAY, and A. E. TIMRECK S1

Clinical Pharmacology of Carbenicillin Compared with Other Penicillins. HAROLD C. STANDIFORD, M. COLIN JORDAN, and WILLIAM M. M. KIRBY S9

In-Vitro Activity of Carbenicillin and Results of Treatment of Infections due to *Pseudomonas* with Carbenicillin Singly and in Combination with Gentamicin. CHARLES B. SMITH, JAMES N. WILFERT, PETER E. DANS, THOMAS A. KURRUS, and MAXWELL FINLAND S14

Discussion S26

The Role of Carbenicillin in Treatment of Infections of the Urinary Tract. MARVIN TURCK, FRED SILVERBLATT, HUGH CLARK, and KING HOLMES S29

Microbiology of Burns Treated with Carbenicillin: Experimental and Clinical Observations. ROBERT B. LINDBERG, P. WILLIAM CURRERI, and BASIL A. PRUITT, JR. S34

Intravenous Administration of Carbenicillin for Septicemia due to *Pseudomonas aeruginosa* following Thermal Injury. P. WILLIAM CURRERI, ROBERT B. LINDBERG, FRANK C. DIVINCENTI, and BASIL A. PRUITT, JR. S40

Discussion S44

Carbenicillin Therapy of Infections due to *Pseudomonas* in Children. JOHN D. NELSON S48

Use of Carbenicillin in Patients with Cystic Fibrosis. BERNARD BOXERBAUM, CARL F. DOERSHUK, and LEROY W. MATTHEWS S59

Treatment of *Proteus* Meningitis with Carbenicillin: A Report of Four Cases. SYDNEY ROSS, ERNEST N. KRAYBILL, and WAHEED KHAN S62

Discussion S71

Pharmacokinetics of Carbenicillin in Patients with Hepatic and Renal Failure. THOMAS A. HOFFMAN, RAFAEL CESTERO, and WARD E. BULLOCK S75

Carbenicillin: In-Vivo Synergism and Combined Therapy. ARTHUR W. NUNNERY, WILLIAM D. HAMILTON, and HARRIS D. RILEY, JR. S78

Carbenicillin in Therapy of Systemic Infections due to *Pseudomonas*. THEODORE C. EICKHOFF and MELVIN I. MARKS S84

Discussion S87

Clinical and Microbiologic Studies of Carbenicillin. DAN MICHAELI and LOUIS WEINSTEIN .. S90

Carbenicillin in Treatment of Severe Infections due to *Pseudomonas*. M. COLIN JORDAN, HAROLD C. STANDIFORD, and WILLIAM M. M. KIRBY S96

Carbenicillin: Clinical and Laboratory Studies. ROBERT W. LYONS, GEORGE F. THORNTON, and VINCENT T. ANDRIOLE S104

XUM

Discussion S114

Carbenicillin: How Useful? EDWARD H. KASS S115

Volume 122 • *October 1970* • *Number 4*

Original Articles

Experimental Respiratory Infection with Type 4 Adenovirus Vaccine in Volunteers: Clinical and Immunological Responses. THOMAS J. SMITH, EDWARD L. BUESCHER, FRANKLIN H. TOP, JR., WILLIAM A. ALTEMEIER, and JACK M. MCCOWAN 239

Experimental Streptococcal Glomerulonephritis: Longitudinal Study of a Laboratory Model Resembling Human Acute Poststreptococcal Glomerulonephritis. KENNETH L. VOSTI, LOIS H. LINDBERG, JON C. KOSEK, and SIDNEY RAFFEL 249

Direct Immunofluorescent Studies of Infection with Respiratory Syncytial Virus. HITOSHI NAGAHAMA, JERRY J. ELLER, VINCENT A. FULGINITI, and MELVIN I. MARKS 260

Community-wide Outbreak of Infection with a 229E-like Coronavirus in Tecumseh, Michigan. JOSEPH J. CAVALLARO and ARNOLD S. MONTO 272

Human Streptococcal Disease Syndrome Compared with Observations in Chimpanzees. II. Immunologic Responses to Induced Pharyngitis and the Effect of Treatment. ROBERT A. ZIMMERMAN, DONALD H. KRUSHAK, ELIZABETH WILSON, and JACK D. DOUGLAS 280

Role of Lysosomes and Cathepsin Inhibitor in Plasma during Pneumococcal Infection. JAMES C. GUCKIAN, BERNARD F. MORREY, and HENRY B. KIRBY with the technical assistance of Kathryn Haden 290

Complications of Smallpox Vaccination, 1968: Results of Ten Statewide Surveys. J. MICHAEL LANE, FREDERICK L. RUBEN, JOHN M. NEFF, and J. D. MILLAR 303

A Leptospiral Factor Producing Cytopathic Effect on L Cells. PAUL A. YAM, NORMAN G. MILLER, and ROBERTA J. WHITE 310

A Case of Human Rabies in Kansas: Epidemiologic, Clinical, and Laboratory Considerations. ROBERT H. RUBIN, LEONARD SULLIVAN, RALPH SUMMERS, MICHAEL B. GREGG, and R. KEITH SIKES 318

Notes

Antibiotic-Induced Alterations in the Surface Morphology of Bacterial Cells: A Scanning-Beam Electron Microscope Study. ALBERT S. KLAINER and ROBERT L. PERKINS 323

The Influence of Altered Viral Virulence on the Response of Host Serum Alpha$_2$ Glycoglobulins. J. BRENT ROLLINS, GEORGE A. BURGHEN, and WILLIAM R. BEISEL 329

Herpes-Zoster Meningoencephalitis. FORBES H. NORRIS, JR., RICHARD LEONARDS, PHILIP R. CALANCHINI, and C. DAVID CALDER 335

Enhanced Resistance of Mice to Virulent Japanese B Encephalitis Virus following Inactivated Vaccine and Poly I:C. BALWANT SINGH and BOSKO POSTIC 339

Editorial

The Fungal Skin Test as a Diagnostic Hindrance. STUART LEVIN 343

Correspondence

Meningococcal Pneumonia. JOHN P. CANBY 346

From the Center for Disease Control

St. Louis Encephalitis in Saline County, Illinois, 1968. ROBERT H. RUBINS, THOMAS H. GLICK, and NORMAN J. ROSE 347

Surveillance of Foodborne Disease in the United States. A Comparison of Data—1968–1969. EUGENE J. GANGAROSA and JOSEPH A. DONADIO 354

Notice

Two-day Course in Infectious Diseases offered by the University of Miami School of Medicine and Mount Sinai Hospital of Greater Miami 359

Infectious Diseases Society of America—News

Paul A. Bunn, M.D., 1914–1970 360

Morton Hamburger, M.D., 1907–1970 362

Annual Meeting, October 17 and 18, 1970—Program 364

Instructions to Authors

Volume 122 • *November 1970* • *Number 5*

Original Articles

Transmission of Chloramphenicol-resistant *Staphylococcus epidermidis:* Epidemiologic and Laboratory Studies. DAVID W. BENTLEY, JEROME J. HAHN, and MARK H. LEPPER 365

The Normal Flora of Ileostomy and Transverse Colostomy Effluents. SYDNEY M. FINEGOLD, VERA L. SUTTER, JAMES D. BOYLE, and KAORU SHIMADA 376

A Ten-Year Study of Bacteriuria in Schoolgirls: Final Report of Bacteriologic, Urologic, and Epidemiologic Findings. CALVIN M. KUNIN 382

Analysis of the Virulence of *Shigella flexneri* by Experimental Infection of the Rabbit Eye. WILLIAM R. CROSS and MITSURU NAKAMURA 394

Development and Persistence of Immunity to Epstein-Barr Virus in Man. P. TISCHENDORF, GRACE J. SHRAMEK, R. C. BALAGTAS, F. DEINHARDT, W. H. KNOSPE, G. R. NOBLE, and J. E. MAYNARD 401

Experimental Osteomyelitis. I. A Description of the Model. CARL W. NORDEN, with the technical assistance of ELIZABETH KENNEDY 410

Changing Ecology of Bacterial Infections as Related to Antibacterial Therapy. MAXWELL FINLAND 419

Hepatitis Virus: Effect of Heat on the Infectivity and Antigenicity of the MS-1 and MS-2 Strains. SAUL KRUGMAN, JOAN P. GILES, and JACK HAMMOND 432

Review

A Review of Soviet Viral Hemorrhagic Fevers, 1969. JORDI CASALS, BRIAN E. HENDERSON, HARRY HOOGSTRAAL, KARL M. JOHNSON, and ALEXIS SHELOKOV 437

Notes

The Effect of Cryptococcin on Leukocytic Migration. JOHN A. MOHR, HAROLD G. MUCHMORE, FRANCES G. FELTON, EVERETT R. RHOADES, and BEVERLY A. MCKOWN 454

XUM

Comparative Study of Gonococcal Susceptibility to Penicillin in the United States, 1955–1969. JOHN E. MARTIN, JR., ARZELL LESTER, ELEANOR V. PRICE, and JOHN D. SCHMALE 459

Editorial

Antibiotic Synergism against Enterococci. WILLIAM M. M. KIRBY 462

From the National Medical Audiovisual Center 464

Instructions to Authors

Volume 122 • *December 1970* • *Number 6*

Original Articles

Differential Effects of Benzylpenicillin and Ampicillin on *Escherichia coli* and *Proteus mirabilis* in Conditions Simulating Those of the Urinary Bladder. D. GREENWOOD and F. O'GRADY 465

A Field Trial for Evaluation of the Prophylactic Effect of Influenza Vaccine Containing Inactivated A2/Hong Kong and B Influenza Viruses. A. SUGIURA, H. YANAGAWA, C. ENOMOTO, M. UEDA, K. TOBITA, N. MATSUZAKI, D. SUZUKI, R. NAKAYA, and I. SHIGEMATSU 472

Variola Major in West Pakistan. THOMAS M. MACK, DAVID B. THOMAS, and MALIK MUZAFFAR KHAN 479

Immunization against *Brucella* Infections: Immune Response of Mice, Guinea pigs, and *Cynomolgus philipinensis* to Live and Killed *Brucella melitensis* Strain Rev. I Administered by Various Methods. T. H. CHEN and SANFORD E. ELBERG 489

Temperature-Sensitive Mutants of Respiratory Syncytial Virus: In-Vivo Studies in Hamsters. PETER F. WRIGHT, WILLIAM G. WOODEND, and ROBERT M. CHANOCK 501

Fowl Plague Virus from Man. CHARLES H. CAMPBELL, ROBERT G. WEBSTER, and SYDNEY S. BREESE, JR. 513

Oxygen-Stable Hemolysins of Group A Streptococci VII. The Relation of the Leukotoxic Factor to Streptolysin S. ITZHAK OFEK, SONIA BERGNER-RABINOWITZ, and ISAAC GINSBURG 517

Stabilization of Chikungunya Virus Infectivity by Human Blood Platelets. R. P. BRYCE LARKE and E. FREDERICK WHEELOCK 523

Review

Cytomegaloviruses: The Difficult Years. THOMAS H. WELLER 532

Notes

Vibrio cholerae: Production of Toxin by a Nonpathogenic Strain. UZY BLACHMAN, S. BASU, and M. J. PICKETT 540

A Simple, Rapid Test to Differentiate Penicillin-susceptible from Penicillin-resistant *Staphylococcus aureus*. A. P. ADAMS, A. L. BARRY, and E. JACK BENNER 544

Meningitis and Bacteremia after Ventriculoatrial Shunt-Revision: Isolation of Lecithinase-producing *Bacillus cereus*. H. L. LEFFERT, J. N. BAPTIST, and L. I. GIDEZ 547

Editorials

Pursuing Toxoplasma. J. K. FRENKEL 553

Viral Hemorrhagic Fevers. ALEXIS SHELOKOV 560

Correspondence

Chromobacterium Septicemia in the Gibbon. DENNIS O. JOHNSEN, JAMES D. PULLIAM, and PRAYOT TANTICHAROENYOS 563

From the Center for Disease Control

Tetanus in the United States, 1968 and 1969. THOMAS M. BUCHANAN, GEORGE F. BROOKS, STANLEY MARTIN, and JOHN V. BENNETT 564

Trichinosis in the United States, 1969. JAMES E. HARBOTTLE, JAY B. SHUMAKER, and MYRON G. SCHULTZ 568
